

Heating Oil Pollution Liability Insurance Program

Why It Was Created

To make pollution liability coverage available for owners of **active** (in use) heating oil tanks because:

- Owners are responsible for cleanup of contamination if a leak occurs; and,
- Coverage is often not available from homeowners' insurance companies.

How It Is Funded

The program is funded by a fee that heating oil dealers pay per gallon of heating oil sold. Heating oil is defined as diesel, kerosene or stove oil.

Success Of The Program

As of December 2002, over 300 sites have been cleaned and over \$3,000,000 has been spent on claims.

What Is Covered

- Up to \$60,000 for cleanup of contamination resulting from accidental releases that start after the active tank is registered with PLIA.
- Up to \$1500 for property restoration (e.g. landscaping).
- Costs in excess of other valid insurance or warranties.

What Is Not Covered

- Releases from inactive tanks or other sources.
- Releases that started before registering with PLIA.
- Removal/repair/replacement of the tank/lines/furnace.
- Emergency heat restoration.

How To Apply For Insurance

- There is no cost to you to register.
- You must complete and submit to PLIA the attached registration form (instructions on reverse).
- You are registered when PLIA receives your completed registration form.
- You **must** be registered with PLIA **prior** to the start of any accidental release in order for the cleanup to be covered.
- When PLIA receives your completed registration form, you will be mailed a confirmation. If you do not receive a confirmation within 14 days please contact PLIA at 1-800-822-3905 or (360) 586-5997.

How Are Claims Filed

If you suspect a release from your active, registered heating oil tank, you must contact PLIA at 1-800-822-3905 or (360) 586-5997 to file a claim.

- PLIA will investigate the claim, including taking photos of your property and the failed tank.
- You will hire a contractor to do the cleanup. The contractor must be picked from the list that will be provided by PLIA when you file a claim.
- All work must be approved by PLIA **before** the work starts.
- If PLIA pays for the cleanup, you must continue using heating oil for a minimum of twelve months after the cleanup is finished.

Registration Procedures

- 1. Complete the registration form above.** The form must be signed by the heating oil tank owner.
- 2. Include with the completed registration form the documentation required to prove that the tank has been active for 18 months prior to registration.** Documentation must include **one** of the following:

Option A

Completion of the Heating Oil Endorsement section on the registration form.

Option B

Copies of invoices or canceled checks for receipt of heating oil at the tank(s) you wish to register, for 18 months prior to this registration.

- 3. Mail completed registration form and required documentation to:**

Pollution Liability Insurance Agency
P.O. Box 40930
Olympia, WA 98504-0930

Real Estate Transactions

If a registered owner sells the home, or transfers ownership in any way, the registration under the Heating Oil Pollution Liability Insurance Program ENDS.

The new owner of the home must register with PLIA, in order to continue the insurance coverage. If the new owner does not register, they **WILL NOT** have coverage.
